A NEWS

THE SUMMER BLOCKBUSTER

YOU'RE A WINNER YOU GET A 5 ISSUE DIGEST SUBSCRIPTION

Motion Pictures have been a huge part of American, and indeed WORLD culture for many years. Movies have often provided an escape for millions of people who can enter a theater for two hours and forget the hardships of their day-to-day lives. But in the summer of 1975, movies evolved into something bigger.

With the release of Stephen Spielberg's JAWS, the gigantic world-wide response demanded a new term - the summer BLOCKBUSTER. The idea that a movie could be specifically designed as a cultural phenomenon marked a dramatic change in the industry. The summer months were targeted for the release of such movies, due in part to the appeal of an icey cold movie theater in the heat of July or August.

A movie does not neccessarily have to be successful to be considered a blockbuster. Many films are catagorized as blockbusters for their massive advertising campaigns or lavish special effects. In the end, the fate of a movie lays in YOUR hands... so have a great summer and ***SEE YOU AT THE MOVIES!***
